To Whom It May Concern:

We built Descendants Beer & Beverage Co. at 319 Victoria St. N. in the Winter and Spring of 2016. We concurrently built Bitte Schon Brauhaus in New Hamburg.

Fred Kau Plumbing has worked with us on both of these brewery projects. We found Fred Kau staff to be professional, helpful, knowledgeable and resourceful.

We believe the quality of their work to be excellent and to date have had no issue with any of the projects that they completed for us.

There were three aspects that we specifically appreciated about working with Fred Kau Plumbing. Firstly, the owner went out of his way to keep up with the progress of the project and assisted us in troubleshooting economical options. The staff always spoke to both owners with respect. Lastly, they were willing to help us problem solve in areas when no one else would and regularly went above and beyond in their willingness to help us.

We have learned the names of many staff members from Fred Kau and feel as though they are a part of the Descendants family in so many ways. Several have come in for drinks or purchases from our bottle shop since we opened and it's always nice to host them in the brewery they helped create.

Construction and remodeling projects are stressful. We found that working with Fred Kau Plumbing and Heating helped to reduce our stress as we had total faith in their abilities and their word. We have told countless individuals how much we truly loved working with this company and how much we recommend them.

If you are looking for a company you can trust, whose staff are personable and friendly, this is your company.

Yours in Brewing,

Robin Molloy & Lee Brooks

Co-owners, Descendants Beer & Beverage Co.
